

## Rules of the Road for Motorists

- When approaching a roundabout, follow the lane designation signs and choose the appropriate lane for multi-lane roundabouts.
- Typically, in a multi-lane roundabout, stay in the right lane if you want to turn right or go straight (the first two exits of a roundabout). Get in the left lane if you want to turn left or make a U-turn.

### Samples of approach lane designation signage for multi-lane roundabouts

- Slow down and yield to pedestrians in the crosswalk.
- Look to the left. Traffic already within the roundabout always has the right-of-way.
- Approach the yield line and enter the roundabout when there is an adequate gap in the circulating traffic flow.
- If another car is waiting at the yield line ahead of you, do not stop in the crosswalk. Keep the crosswalk clear for pedestrians.
- Bicyclists are permitted to ride within the roundabout and will be riding in the lane just as other vehicles do. Do not pass a bicycle in a roundabout.
- Once you have entered the roundabout, you have the right-of-way. Proceed counter-clockwise to your exit.
- As you approach your exit, turn on your right turn signal.
- Exit the roundabout, yielding to pedestrians in the crosswalk.
- Give special consideration to trucks, trailers, and other large vehicles. Never pass or drive adjacent to large vehicles within the roundabout.
- Emergency vehicles have the right-of-way. If you are within the roundabout when an emergency vehicle approaches, do not stop. Move safely through, exit, and then pull over.
